

Pre-Stream Checklist

Tape it by the camera. Run top to bottom before you go live. TikTok Shop LIVE — affiliate.

PRODUCT ORDER

- ☐ Lead with the **highest-CTR / add-to-cart** product to build buying momentum
- ☐ Secondary products after the opener
- ☐ Price ladder within the stream (low→high or high→low)
- ☐ No two near-duplicate products competing
- ☐ Higher-ticket (Bose, Bluetti, safes) staged to lift AOV

TECH & FRAME

- ☐ **Audio checked** — viewers forgive picture, not sound
- ☐ Front-lit, no backlight; face fully in frame
- ☐ First product in frame at open
- ☐ LIVE Board open on the iPad beside you
- ☐ Check-in card / dashboard open on phone

REACH (BEFORE & AT OPEN)

- ☐ Teaser video posted **48h before**
- ☐ Scheduled LIVE event linked to a related video
- ☐ First 1–2 min weighted most — **come in hot**: energy, clear message, immediate interaction
- ☐ Engagement bombs pre-planned at **:08, :20, :32...**

THE OPENER (FIRST 2 MIN)

- ☐ State the benefit + the deal in one line
- ☐ Say "tap the card" within 30s
- ☐ Prompt a keyword comment ("drop FRIDGE if...")
- ☐ Pin the first product before you demo it

COMPLIANCE & REACH KILLERS — NEVER DO THESE

- ⚠ **No prices** in pre-recorded overlays; **no competitor brand names** on screen
- ⚠ No external links / QR / "check my bio" while live
- ⚠ Never blank/static screen, face out of frame, or step away without Pause
- ⚠ No simulcasting to other platforms
- ⚠ **Never end-and-restart before minute 60** to "reset" traffic — it throws away the algorithm's learning

Reads the funnel: Impressions → Join rate → Watch time → Interaction → Product CTR → Click-to-order → GMV. End on a trend, not a feeling.
